

POP CAN CAGES

Please help the volunteers prepare cans and bottles for redemption:

- Refundable cans and plastic can be in the same bag.
- Refundable glass needs to be in a separate bag.
- Please tie your bag before placing it in the can cage.
- No trash should be put into the can/bottle cages. Volunteers must sort out the trash and then proceeds from the can redemption must be spent to pay for the trash disposal.

Big thank you to all the volunteers who sort. Sorting normally is done on Monday mornings at 8:15 am. Please join us at the can cages by the boat ramp if you want to help.
